Supplementary Material S1. Construct Framework, Dimensions, Measurement Items, and Sources

Construct	*Dimension*	*Measurement Items*	*Sources*
Entrepreneurial Education	**Theoretical knowledge of entrepreneurship**	1. I have acquired theoretical knowledge about entrepreneurship. 2. Awareness activities have encouraged me to develop an entrepreneurial mindset oriented toward identifying business opportunities. 3. I have learned and applied ideation methodologies (e.g., design thinking, structured brainstorming) to generate and prioritize innovative ideas. 4. I understand the stages and tools required to design and validate a business model based on market evidence. 5. I know how to transform a validated idea into an operational business. 6. I possess the skills and support necessary to scale my company's operations and access new sources of financing. 7. The program has provided me with networks and tools to sustain the growth of my company through continuous improvement and connections with strategic partners.	Schwarz et al. (2009); Barba-Sánchez and Atienza-Sahuquillo (2018)
	Development of Entrepreneurial skills	1. I have the ability to identify business opportunities in my environment. 2. I possess the skills to solve complex problems effectively. 3. I consider myself capable of leading teams and managing entrepreneurial projects. 4. I have developed creative and innovative thinking to face challenges. 5. I can make appropriate decisions even in uncertain contexts. 6. I have good negotiation skills and communicate effectively with others.	Bandura (2010); Ghafar (2019)
	Institutional support and educational environment	1. I have access to university incubators or accelerators that support entrepreneurship. 2. I have participated in fairs, competitions, or entrepreneurship-related university events. 3. I have received mentoring or guidance from professors or entrepreneurship experts. 4. My university facilitates contact with entrepreneurs and entrepreneurial networks. 5. I have institutional resources available for developing or validating business ideas. 6. My training includes courses or workshops specifically focused on entrepreneurship.	Bazan (2022); Maritz et al. (2023)

Construct	*Dimension*	*Measurement Items*	*Sources*
Entrepreneurial Self-Efficacy	Business planning and management	1. I am confident in my ability to develop a comprehensive business plan. 2. I can set clear and realistic business goals. 3. I feel confident making strategic business decisions. 4. I can organize the resources of a business efficiently.	Bandura (2010); Newman et al. (2019); Li et al. (2023)
	Innovation and problem solving	1. I feel confident identifying viable business opportunities. 2. I have the ability to develop innovative products or services. 3. I am confident in my ability to solve complex problems in business contexts. 4. I am capable of adapting quickly to changes in the market. 5. I feel confident applying creative solutions to business challenges. 6. I have the ability to validate my entrepreneurial ideas in real-world scenarios.	Krueger et al. (2000); Bandura (2010); Newman et al. (2019); Li et al. (2023)
	Interaction and entrepreneurial leadership	1. I feel confident leading work teams. 2. I can communicate effectively with partners and investors. 3. I am able to influence decisions in business environments. 4. I feel confident presenting my business idea to different audiences. 5. I am confident in my ability to build and maintain networks useful for my venture. 6. I have the skills to negotiate effectively with suppliers and customers.	Bandura (2010); Elliott et al. (2020); Ghafar (2019)
Entrepreneurial Motivation	Personal attitude	1. Being an entrepreneur would have more advantages than disadvantages for me. 2. A career as an entrepreneur is attractive to me. 3. If I had the opportunity and resources, I would like to start a business. 4. Being an entrepreneur would give me great satisfaction. 5. Among several options, I would prefer to be an entrepreneur.	Ajzen (2020); Liñán and Chen (2009); Anjum et al. (2023)
	Subjective norms	1. My close family would approve of my decision to start a business. 2. My friends would support my decision to create a company. 3. My colleagues would approve of my entrepreneurial decision.	Ajzen (2020); Liñán and Chen (2009); Bazan (2022)

Construct	*Dimension*	*Measurement Items*	*Sources*
	Perceived behavioral control	1. Starting and running a business would be easy for me. 2. I am prepared to create a viable business. 3. I can control the process of starting a new firm. 4. I know the practical details required to start a company. 5. I know how to develop a business project. 6. If I tried to start a new business, I would have a high probability of success.	Ajzen (2020); Liñán and Chen (2009); Talukder et al. (2024)
Entrepreneurial Intention	Entrepreneurial intention	1. I am willing to do anything to become an entrepreneur. 2. My professional goal is to become an entrepreneur. 3. I will do everything possible to create and run my own company. 4. I am determined to create a company in the future. 5. I have seriously thought about starting a business. 6. I have a firm intention to start a business someday.	Ajzen (2020); Liñán and Chen (2009)
